**Employed:**

📅 Current **Position:** Employed at **Cogent E Services Limited** since **January 24, 2019**, continuing to contribute to its success.

📅 Previous **Experience:** Served as **Senior PHP Developer** for **Al Turki Enterprises LLC**, Muscat, Oman, from **June 2015 - 2018**, demonstrating expertise in PHP development and delivering impactful solutions.

## Current Company Projects Overview

---

At **Cogent E Services Limited (January 2019 – Present)**, I have been actively involved in delivering high-impact web development solutions across multiple projects for renowned clients, leveraging my expertise in the **Laravel framework**. Key projects include:

1. **Client: Ashok Leyland**
  - **Projects:** Elite Support, Standard Support, AI Revive, AI Defense
  - **Description:** Contributed to designing and implementing robust support systems tailored to streamline operational efficiency and enhance customer experience.
2. **Client: Ather**
  - **Project:** RSA (Roadside Assistance)
  - **Description:** Played a critical role in developing an end-to-end assistance platform for seamless roadside support, ensuring scalability and usability.
3. **Client: Volvo**
  - **Project:** CMS (Content Management System)
  - **Description:** Developed a comprehensive content management solution to efficiently handle and update digital content while ensuring exceptional user experience.
4. **Client: LAVA**
  - **Project:** IMAP Mail
  - **Description:** Built and maintained an IMAP-based email communication platform, ensuring secure and reliable performance for business-critical operations.

Each project involved end-to-end development, from requirement analysis and design to deployment, while adhering to best practices and maintaining a client-centric approach. My contributions consistently delivered scalable, secure, and efficient solutions aligned with business goals.
